

Utility Equipment Assignment KEY

.....

Introduction A variety of equipment is used by the Utility Person. For your safety and the safety of your Co-workers, it is important that you operate and clean the equipment properly.

Directions In the Operations Manual, locate and read the equipment section behind the Utility section. Use this information, and the Equipment Manual to answer the questions below.

1. List four daily preventative maintenance duties for the Dish Machine:

1.	Clean the dish machine after each meal period.
2.	Clean the exterior of the dish machine and the dish table.
3.	Clean the interior of the dish machine.
4.	Clean any obstructions from the rinse and wash arms.

2. What are the 1st two steps to deliming the Dish Machine?

1.	turn off the power switch
2.	remove the SMARTPOWER Dish machine detergent from its dispenser

3. How often should the line strainer on the dish machine be cleaned?

Clean them after each rush period or more often if necessary

4. What is the first step to pre-soaking silverware?

Press the button and release it to inject a small amount of Flatware Presoak Solution into the pan. Fill the pan with water.
